HELIOS : FEMINA

The Last Star Cycle

It's good to be back.

I've missed Zeru...

and it's neverending
twilight sky.

gasp

A
Star Cycle
Party!

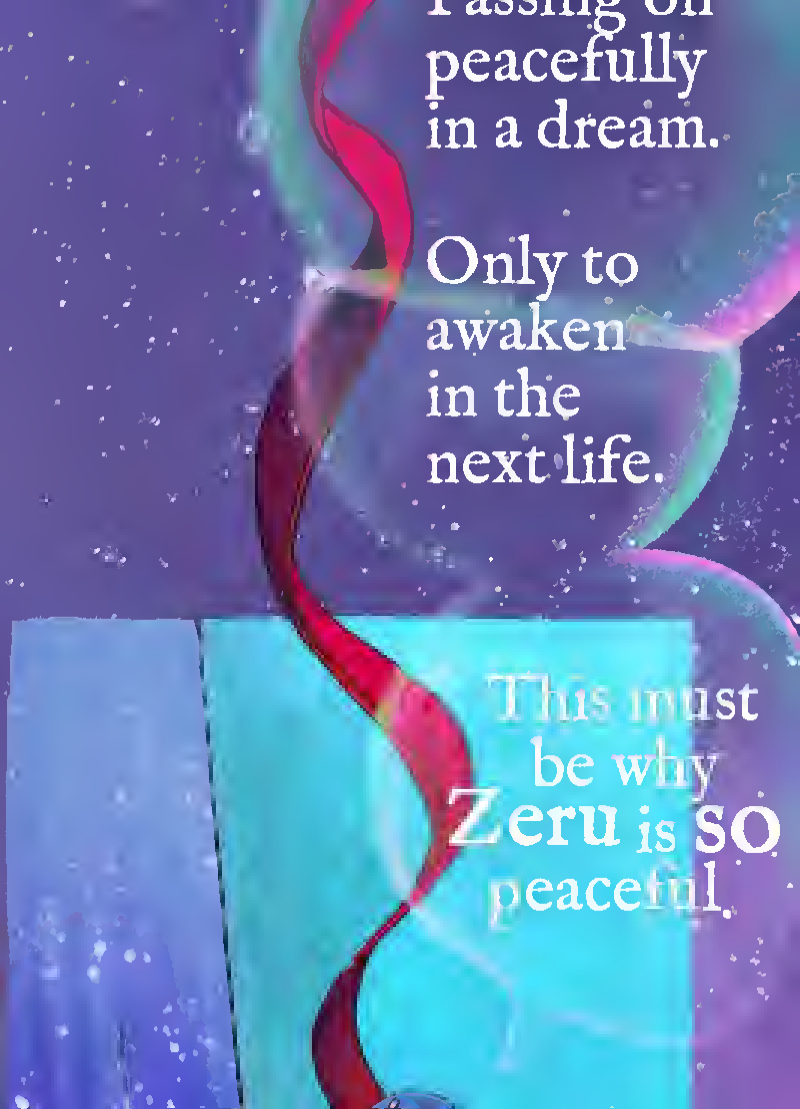
I can't remember the last time I've been to one.
I lost track of my own star cycles!

haha

Oh wOw...
she's only
300?

She still looks
200!

Must be nice to live up to 1,000 star cycles.
Passing on



Passing on peacefully in a dream.
Only to awaken in the next life.
This must be why Zeru is so peaceful.

Peace for over 20,000 years right?

Then let's go
celebrate!

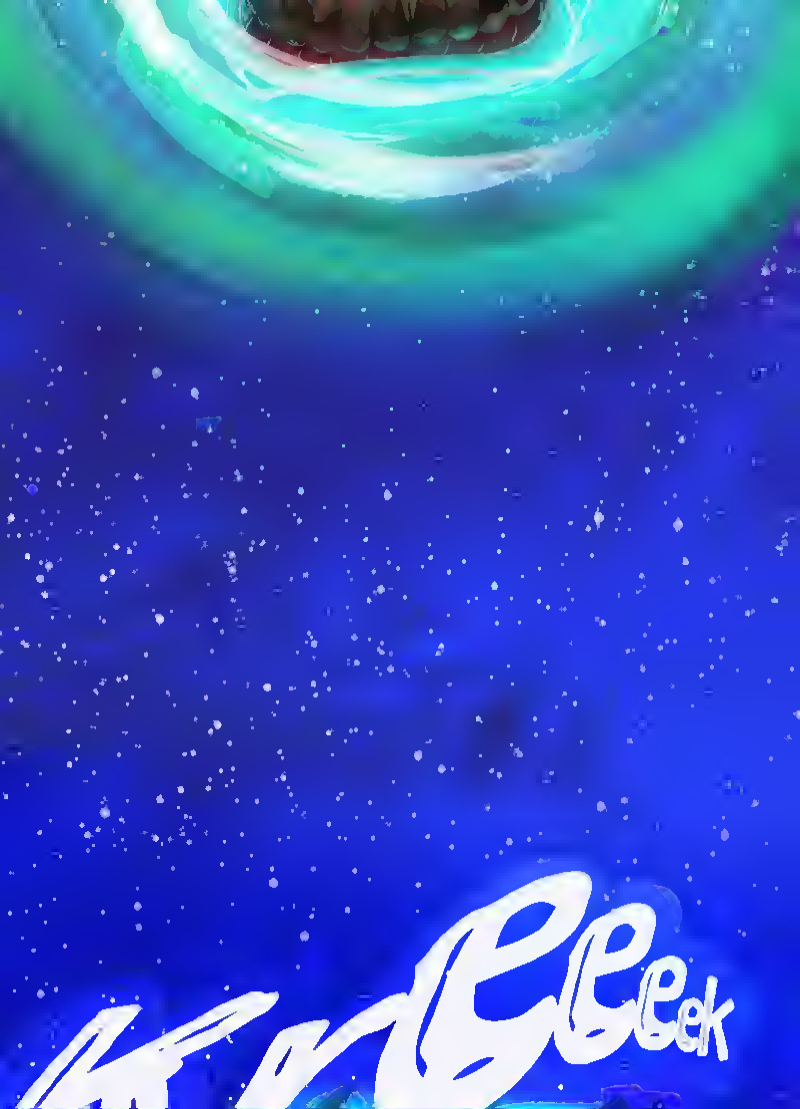
Come crash this party with me!
Dibs

on the plasma
pops!

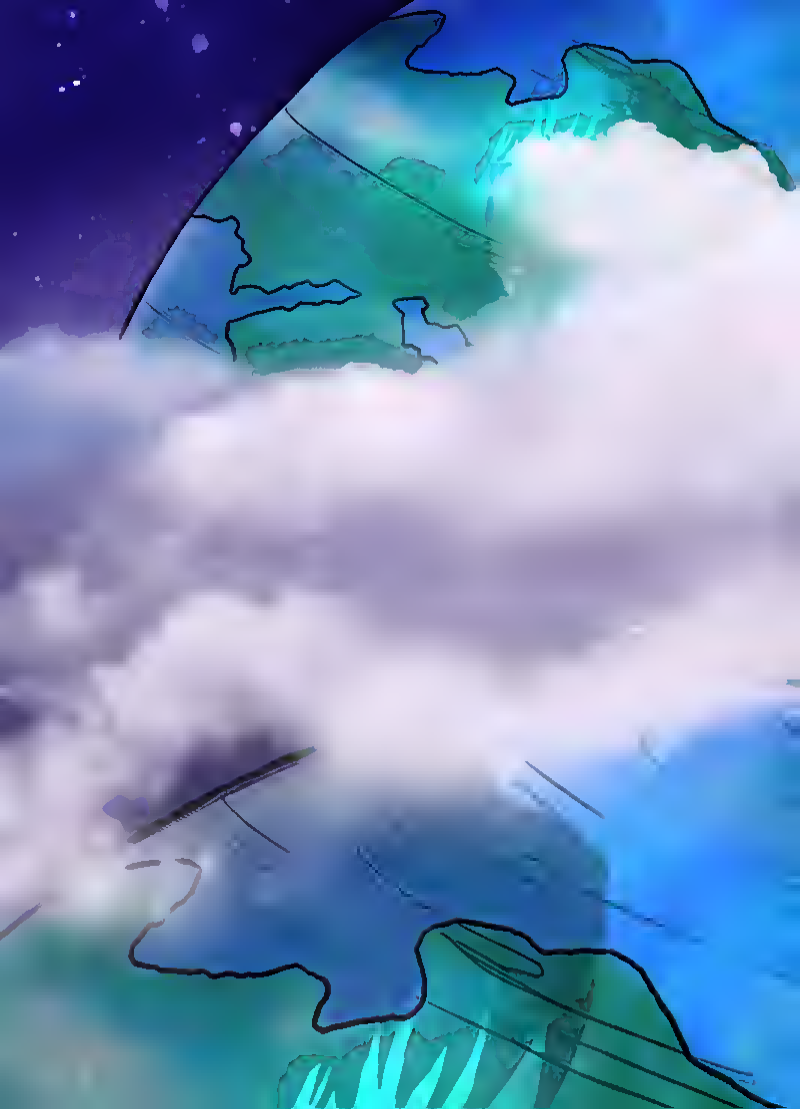
hmm?

whoa...

what is that?



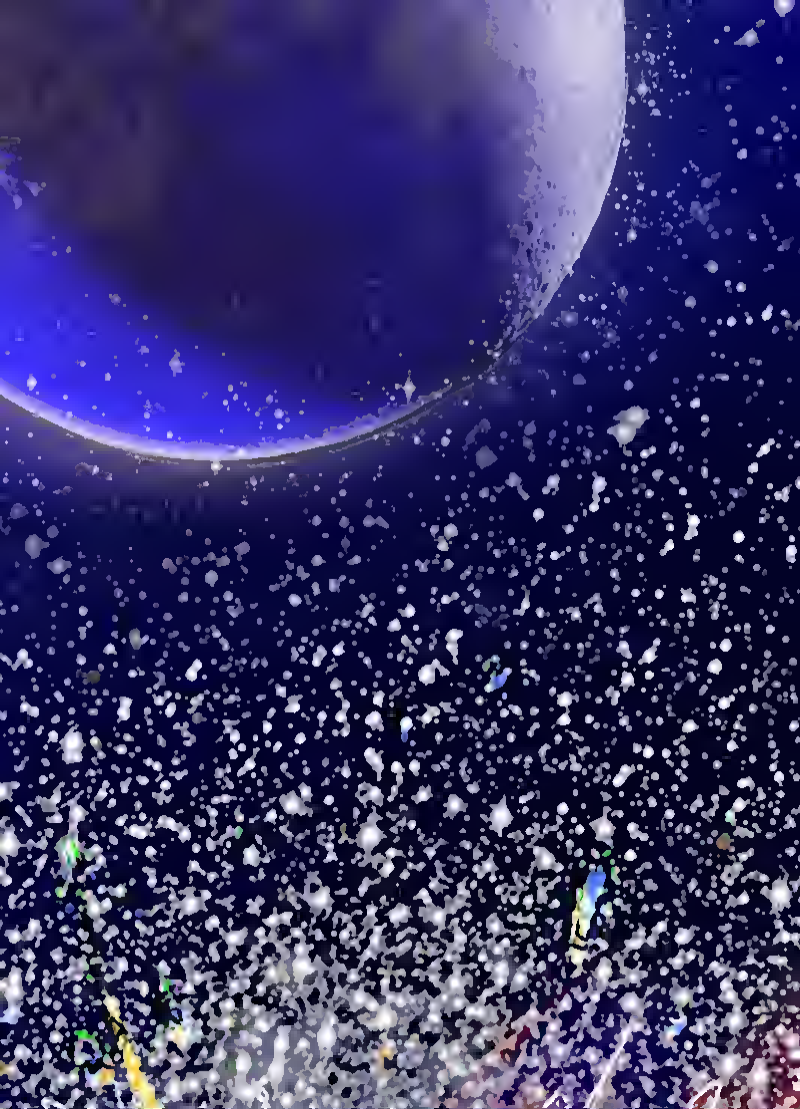
Eeek

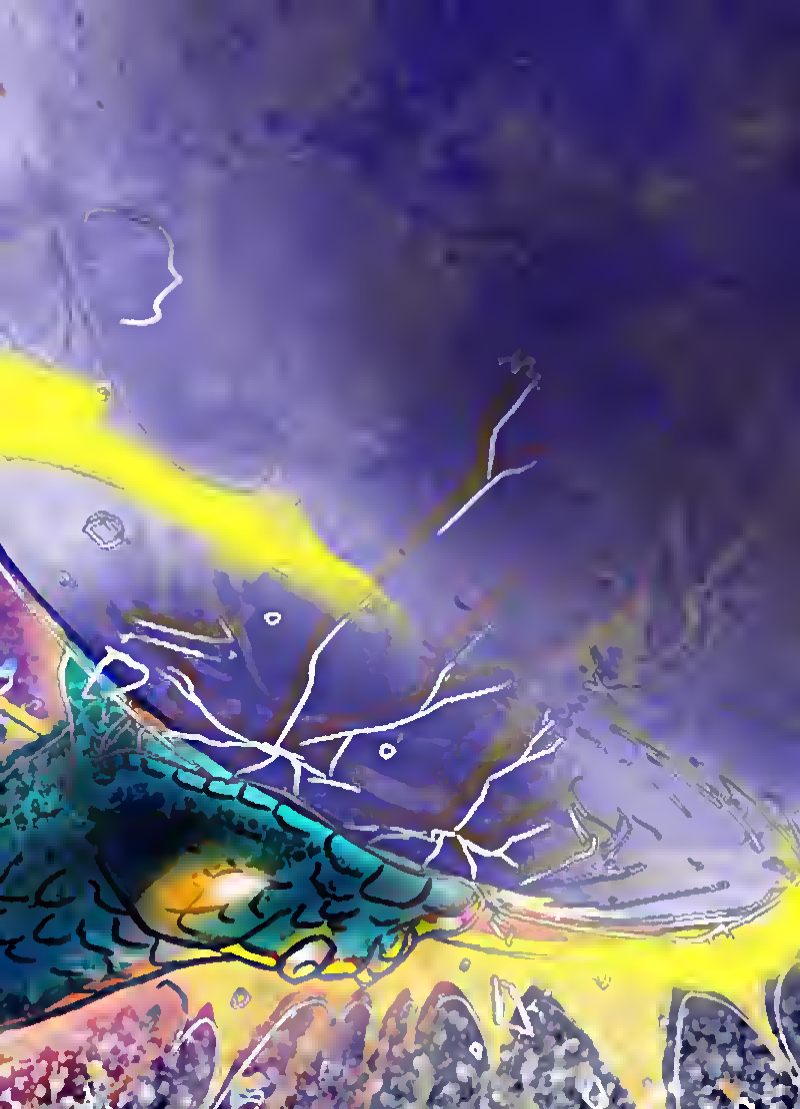


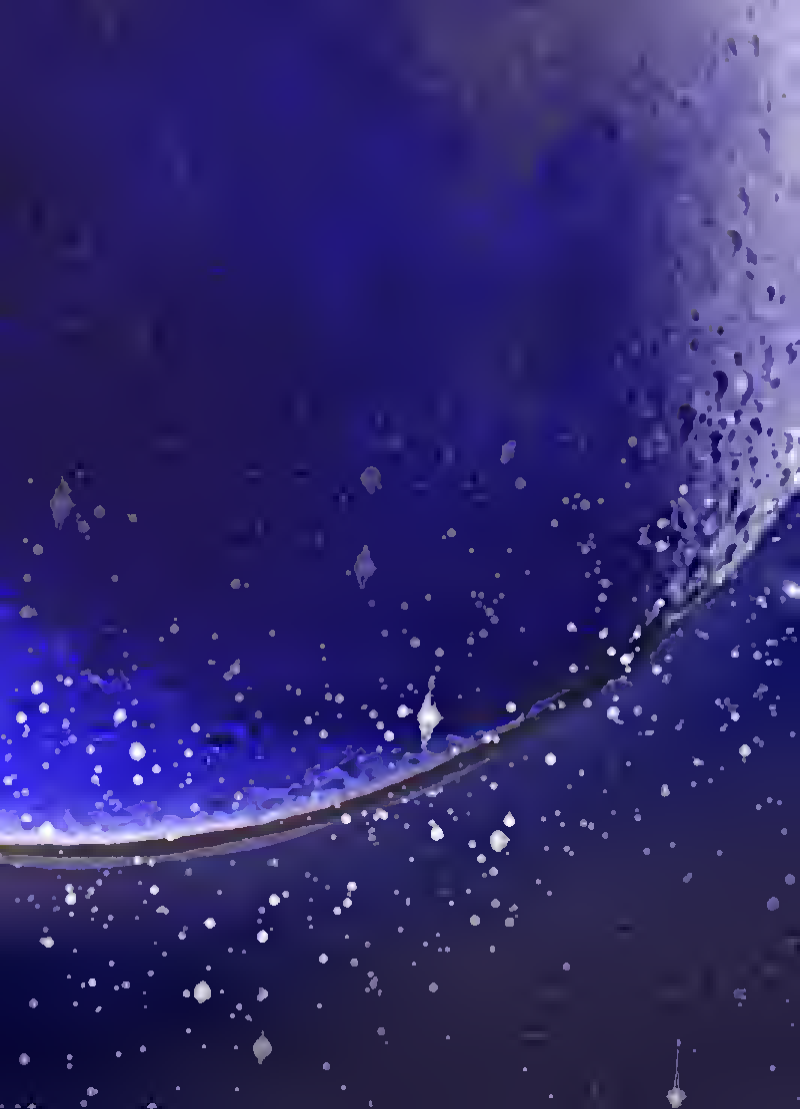
Ooooh, a light show?
nom
nom

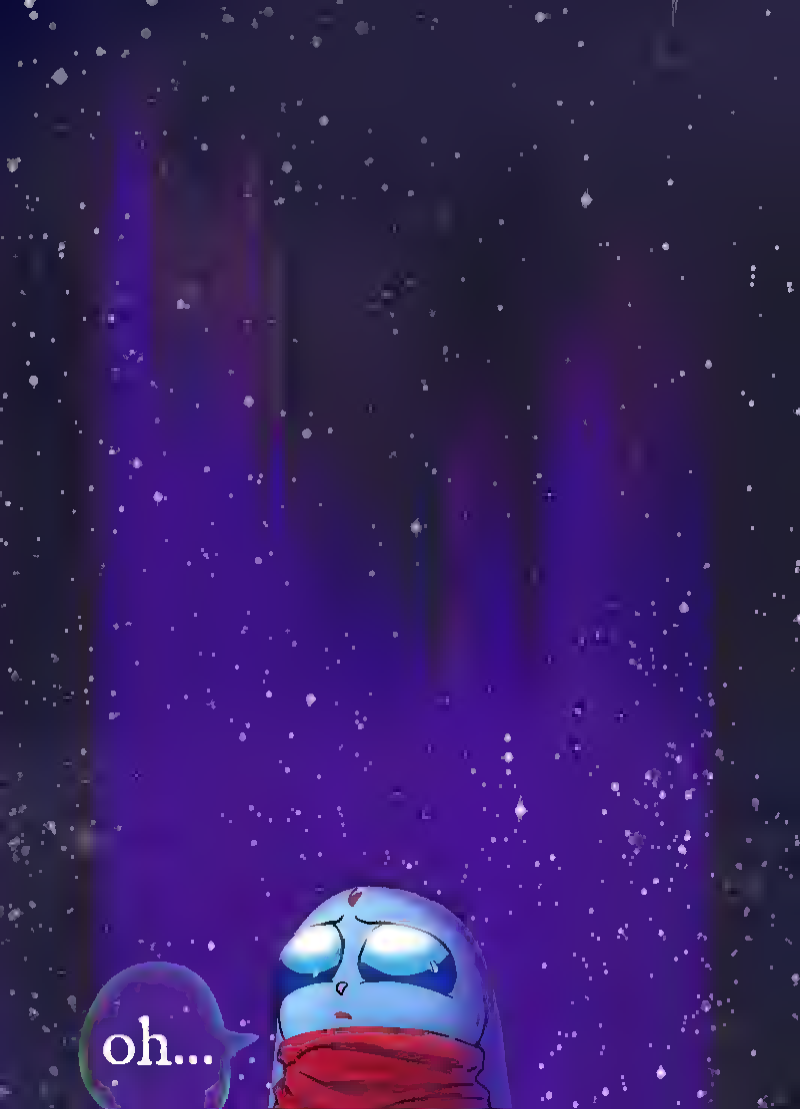
hiss

KRASH









oh...

shit.
